Housing quality and maintenance

Quality of housing

Scottish Housing Quality Standard (SHQS) – Stock condition survey information (Indicator C8)

C8.1	The date your organisation's stock was last surveyed or assessed for compliance with the SHQS	02/2018
C8.2	What percentage of stock did your organisation fully assess for compliance in the last five years?	38.70
C8.3	The date of your next scheduled stock condition survey or assessment	04/2021
C8.4	What percentage of your organisation's stock will be fully assessed in the next survey for SHQS compliance	30.00
C8.5	Comments on method of assessing SHQS compliance.	

The stock condition survey involves an assessment of our housing stock against SHQS and EESSH. Stock condition surveys are carried out every 3 years. Owing to the current COVID-19 restrictions a desktop survey exercise was completed in February 2021, rather than a physical survey.

Survey identifies repairs required within our stock and identifies future planned maintenance renewal requirements over a 30 year period. Stock is assessed against 5 main quality groupings and 55 quality elements to meet SHQS. Survey sample include all house types from each of our development phases and planned renewal cycles are pulled in or extended in accordance with consultant recommendations. Information from SCS is used to update our 5 & 30 year projections

Scottish Housing Quality Standard (SHQS) – Stock summary (Indicator C9)

		End of the reporting year	End of the next reporting year

--------------	--	--------

How many times in the reporting year did not meet your statutory duty to complete a gas safety check (Indicator 11).

11.1	The number of times you did not meet your statutory duty to complete a gas safety check.	15
11.2	if you did not meet your statutory duty to complete a gas safety check add a note in the comments field	
<p>We carried out 15 gas safety inspection visits out with the 12 month period required by law. In these cases our contractor was unable to enter tenants homes due to someone experiencing Covid-19 symptoms, someone in the household shielding, someone having a serious illness and someone in hospital long term. All of these cases occurred in Quarter 1, during the early months of the pandemic and all of these visits were completed when safe to do so. Average number of days for overdue service visits not completed on time was 8 days. All service visits reverted back to a 10 month cycle in Quarter 2 and we achieved full compliance in Q2, Q3 and Q4</p>		

Indicator 11	15

Annual Return on the Charter (ARC) 2020-2021

Comments (Housing quality and maintenance)

The Association had originally planned to have EPC Certificates for all the properties under management this reporting year, however due to the COVID-19 restrictions this exercise started on 26th April 2021 with a planned completion of 1st June 2021. This year we are reporting 35.6% of all stock having an EPC, reporting next year we should have 100% completed. Since the end of financial year we have carried out surveys in 130 properties and all of them have a valid EPC. Previous stock condition surveys provided assurance that the SAP ratings of all our properties were equal to or in excess of both SHQS 2015 and ESSH 2020 ratings. The majority of our housing stock (90.4%) is new build.

Neighbourhood & community

Estate management, anti-social behaviour, neighbour nuisance and tenancy disputes

Percentage of all complaints responded to in full at Stage 1 and percentage of all complaints responded to in full at Stage 2. (Indicators 3 & 4)

	1st stage	2nd stage
